

List of allowed functions for the EIC codes

December 2021

cio-admin@entsoe.eu

X type EIC Functions List

| | | |
|-----------------------------------|--------------------------------------|---------------------------------|
| Balance Group Responsible Party | Market Operator | Trade Responsible Party |
| Balance Responsible Party | Meter Administrator | Transmission Capacity Allocator |
| Energy Supplier | Metered Data Responsible | LNG System Operator* |
| Balancing Service Provider | Metering Point Administrator | Distribution System Operator |
| Capacity Trader | Nomination Validator | Network User* |
| Consumer | Party Connected To Grid | Platform Operator* |
| Coordination Center Operator | Producer | Market Area Operator |
| Consumption Responsible Party | Production Responsible Party | Measurement Service Provider |
| Grid Access Provider | Profile Maintenance Party | Metering Point Operator |
| Grid Operator | Resource Provider | Metered Data Aggregator |
| Imbalance Settlement Responsible | Resource Capacity Mechanism Operator | |
| Information Provider | Storage System Operator* | |
| Interconnection Trade Responsible | System Operator | |

* = Valid in the Gas Market

Definitions could be found [here](#)

Y type EIC Functions List

| | |
|-----------------------------|----------------------|
| Balance Group | LFC Area |
| Bidding Zone | LFC Block |
| Border Area | Local Market Area |
| Control Area | Market Area |
| Capacity Calculation Region | Member State |
| Coordination Center Zone | Metering Grid Area |
| Distribution Network Area | Scheduling Area |
| ITC* | Synchronous Area |
| | FRR Sharing Region |
| | Regional Outage Area |

* = Valid in the Gas Market

W type EIC Functions List

Capacity Bank

Gas Storage Facility*

Generation**

Generation Unit

LNG Plant*

LNG Terminal*

Load**

Production Plant

Production Unit

Reactance Bank

Resource Object

Resource Capacity Market Unit

Storage Plant*

Shunt Reactor

Rotating phase shifter

- = Valid in the Gas Market
- **=Functions Generation and Load are only informative and not exhaustive.

T type EIC Functions List

Busbar Coupler

Corridor

Internal Line

Internal Tie-Line

Tieline

Transformer

Compressor Station*

Flow Control Station*

Gas Treatment Facility*

Odorization Facility*

* = Valid in the Gas Market

Z type EIC Functions List

Accounting Point

Metering Point

Connection Point

Virtual Trading Points

Virtual Interconnection Points

V type EIC Functions List

Endpoint

IT-system

IT-topic

Location

A type EIC Functions List

Busbar

Harmonic Filter

Dynamic reactive power device

Substation

Passive Node
