

ENTSO-E CNC revision of IGD on Compliance Testing & Monitoring

TOP.3

20th GC ESC meeting, 10 December 2020

Knud Johansen, ENTSO-E

IGD: Compliance Testing and Monitoring – recap

- **Revision in progress:**

Splitting of the 2017 IGD into three IGDs:

1. IGD named “Compliance verification – testing and using Equipment Certificates (EqC)”
2. IGD named “Compliance verification – electrical simulation models”
– coordination with results from EG ISSM will take place
3. IGD named “Compliance verification – monitoring after operational notification”

- **Progress:** see next slides

IGD: Compliance verification – roadmap

1. The first IGD - “Compliance verification – testing and using Equipment Certificates (EqC)” is currently in discussion with the IECRE group focusing the EqC – estimated release of the IGD for public consultation - Q4, 2020.
 - ❖ Workshop achieved on Oct 19th with the TG Compliance and GC ESC members – brief report see next slide
2. The second IGD - “Compliance verification – electrical simulation models” is intended to be created and released in corporation with the activities under the ENTSO-E StG CNC* and after the GC ESC project on “Interaction studies and simulation models PGM/HVDC” (EG ISSM) – estimated release of the IGD for public consultation - Q4, 2021.
 - ❖ Intention to host a workshop in Q1, 2021 (TBC)
3. The third IGD - “Compliance verification – monitoring after operational notification” is intended to be created and released by StG CNC in coordination with experts from System Operations – estimated release of the IGD for public consultation - Q3, 2021.
 - ❖ Intention to host a workshop in Q3, 2021 (TBC)

Progress on IGD 1 – see next slide

*ENTSO-E StG CNC - **Steering Group Connection Codes**

1. Compliance verification – testing and using Equipment Certificates (EqC)

- A workshop took place on Oct 19th 2020 with the attendance of ENTSO-E TG Compliance members + GC ESC members
- The first IGD was discussed and feedback from participants and their organizations was collected until end of Oct
 - 200 comments received – outcome: more than 70 % of comments was accepted or party accepted
 - Type of comments grouped in:
 1. Request for clarification
 2. General comments
 3. Request for integration of new/revised text
- The ENTSO-E relevant team assessed the feedback and provided an updated draft, available for public consultation until Jan 15th, 2021
- Replies to all comments from participants of the workshop Oct 19th were communicated on Dec 8th to the participants
- ENTSO-E still invites for further comments in this second occasion of the public consultation until Jan 15th, 2021
- **Next steps:**
 - After the public consultation the ENTSO-E team will be to compile the comments received
 - Revise the IGD in consultation and issue a final IGD
 - Keep stakeholders informed about the progress on the remaining two IGDs

IGD: Compliance verification
