

Update on NEMO Committee activities

23/09/2020

22nd MESC meeting

CONTENTS

1. CACM Reports 2019
2. Publication of the SDAC and SIDC contracts
3. Ongoing activities

1. CACM Reports 2019

NEMOs, in cooperation with TSOs prepared

- the [CACM Annual Report 2019](#)

It monitors the implementation of the Capacity Allocation and Congestion Management Regulation (CACM Regulation) and the associated Algorithm methodology.

- the [CACM Cost Report 2019](#)

It includes costs of coordinated activities of all NEMOs and/or all TSOs and costs incurred for activities performed by NEMOs and/or TSOs in a certain region, in relation to SDAC and SIDC.

The CACM Reports 2019 has been published on the All NEMO Committee website.

2. Publication of contracts

Publication of contracts according to article 20.7 of the Algorithm Methodology

- According to article 20.7 of the Algorithm Methodology as approved by ACER all NEMOs shall in coordination with TSOs publish, by 1 September 2020, and then continuously update the relevant parts of the following documents:
 - a. operational contracts;
 - b. operational procedures;
 - c. change control procedures
 - d. monitoring procedures;
 - e. fallback procedures; and
 - f. back-up procedures.

3. Ongoing activities

Upcoming CACM revision:

NEMOs participate in ongoing discussions with TSOs, NRAs and the EC on the update of the CACM Regulation. Discussions revolve around:

- MCO activities definition and categorisation
- New MCO development plan
- Costs definition and categorisation

Other ongoing activities:

- NEMOs support TSOs on writing methodology on co-optimisation (EBGL)
