DE/LU: New Intraday Gate Open Time at 15:00 cet D-1

Barbara Zwinka, BNetzA – German NRA

MESC

16.06.2021

www.bundesnetzagentur.de

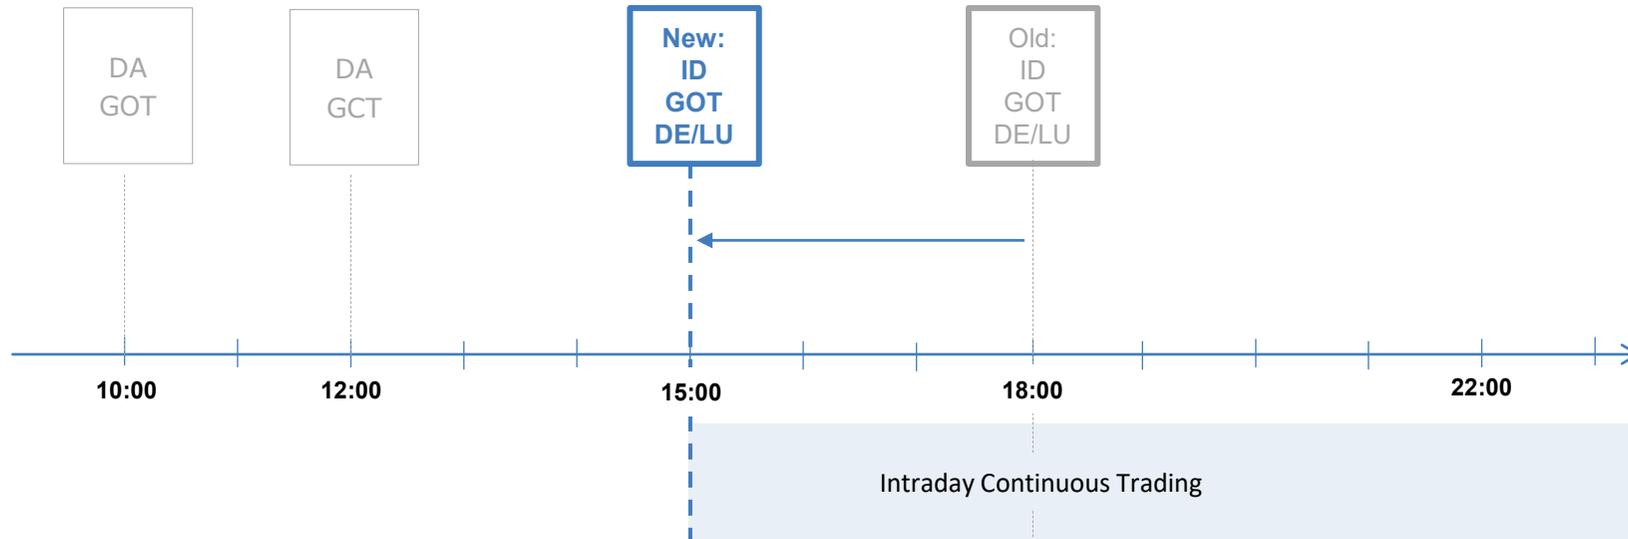

As of 31st of May electricity market participants can participate in intraday continuous trading across all four German scheduling areas as of 15:00 CET on the day before delivery (D-1).

- Testing has been successfully conducted in April/May 2021 to enable a smooth transition for TSOs, NEMOs as well as market participants.
- All NEMOs active in Germany agreed to send the bids and orders from their market participants to the Single Order Book of the Single Intraday Coupling (SIDC) Project, thereby combining market liquidity.

Gate Time Overview

+ 3 hours intraday continuous trading

Use of SIDC (XBID System) by all NEMOs in the DE/LU Bidding Zone

All orders made by market participants in local trading systems NEMOs enter XBIDs Single Order Book
