

The background of the slide features a low-angle shot of a high-voltage power line tower against a sky with soft, pinkish-orange clouds, suggesting a sunset or sunrise. The tower is a dark silhouette, and several power lines stretch across the frame from the top left towards the right. The overall color palette is dominated by blues, pinks, and oranges.

Automatic adjustment of the harmonised technical price limits

14 September 2022, MESC

Current market and regulatory context

Multiple breaches of the technical price limit threshold

Increase of collaterals in forward and DA markets

CACM Regulation foresees automatic adjustment of DA technical price limit

TSOs/NEMOs call to suspend the automatic adjustment rule

ACER calls to reform the adjustment rule

Our recommendations in case of a review of the DA/ID technical price limits' automatic adjustment mechanism

Rules-based system

ID technical price limit adjustment independent from DA

Predictability for the market

Minimum 'gap' between the DA and ID upper technical price limits

Demand reduction signals should be preserved
