

Transparency platform follow up after EBSG

MESC Meeting

07/12/2022

Transparency platform follow up after EBSG

Background on the topic

Eurelectric questions were raised in Electricity Balancing Stakeholder Group on 27 October 2022

The written response was provided to Eurelectric

Follow up on the questions & response with ACER in Electricity Balancing Coordination Group on 24 November 2022

Transparency platform: follow up after EBSG

Action points from the EBSG meeting

- ENTSO-E and Transparency Platform experts from TSOs are expected to discuss internally whether to transfer the historic data from the gap solution location Transnet website published there before Q1 2023 to the Transparency Platform.
- ENTSO-E and Transparency Platform experts from TSOs to research a possibility to clarify the definition of the batteries for the purpose of data reporting and to report the data for batteries separately on the Transparency Platform.
- ENTSO-E and Transparency Platform experts from TSOs are expected to add a description for balancing data on the TP and consider creating a correspondence/explanatory table to support TP data querying.
- ENTSO-E and Transparency Platform experts from TSOs are expected to determine the date and inform stakeholders as to when the Transparency Stakeholder Group will take place.
- ENTSO-E and Transparency Platform experts from TSOs are expected to provide written responses to the market participants' (EURELECTRIC) TP-related questions and feedback raised during the 27 October EBSG meeting.

Transparency platform: follow up after EBSG

Action points from the EBSG meeting

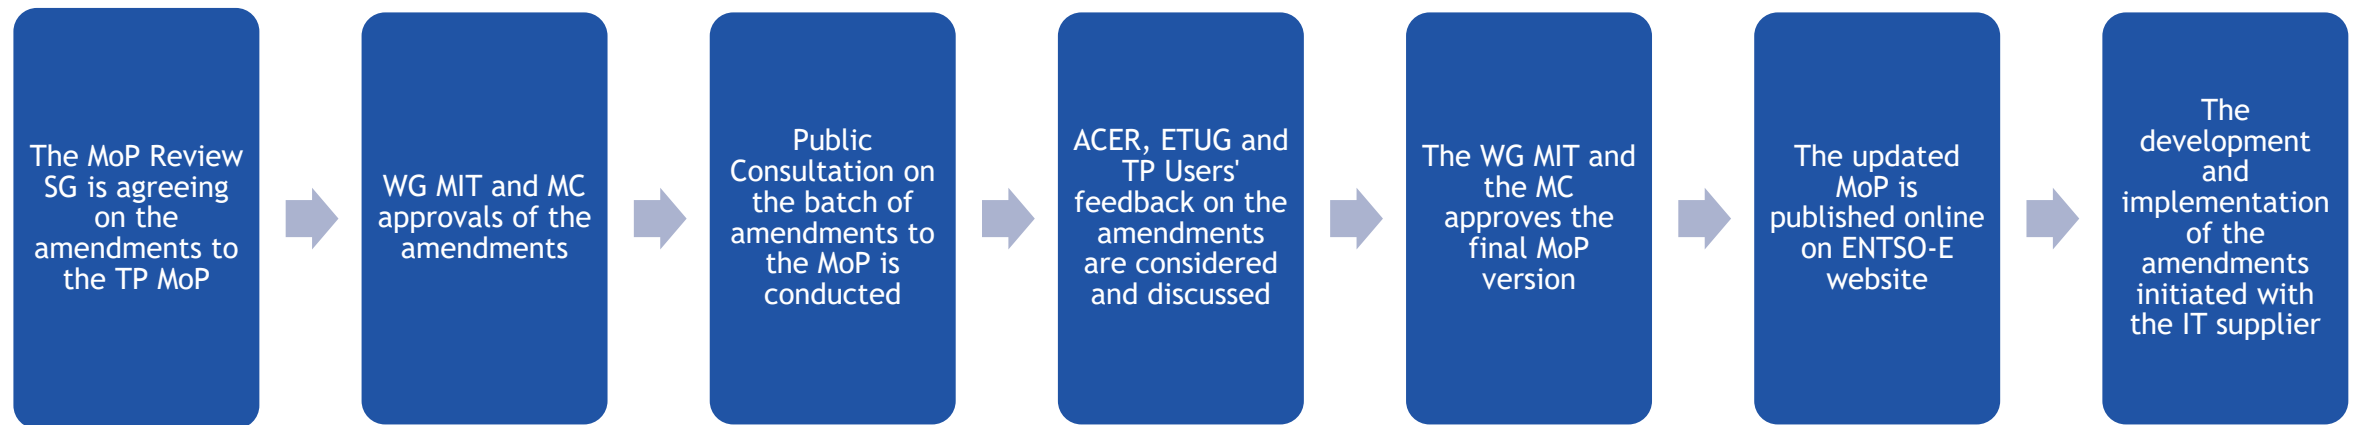

- ENTSO-E and Transparency Platform experts from TSOs are expected to discuss internally whether to transfer the historic data from the gap solution location Transnet website published there before Q1 2023 to the Transparency Platform.

Picasso will do the transfer of the historic data from Transnet BW website to the TP after Picasso stops using the gap solution

Transparency platform: follow up after EBSG

Action points from the EBSG meeting

- ENTSO-E and Transparency Platform experts from TSOs to research a possibility to clarify the definition of the batteries for the purpose of data reporting and to report the data for batteries separately on the Transparency Platform.
- The MoP Review Subgroup is already discussing the topic. The following process will be followed for the MoP Updates:

Transparency platform: follow up after EBSG

Action points from the EBSG meeting

- ENTSO-E and Transparency Platform experts from TSOs are expected to add a description for balancing data on the TP and consider creating a correspondence/explanatory table to support TP data querying.

Transparency platform: follow up after EBSG

Action points from the EBSG meeting

- ENTSO-E and Transparency Platform experts from TSOs are expected to determine the date and inform stakeholders as to when the Transparency Stakeholder Group will take place.

The ENTSO-E Transparency User Group (ETUG) meeting is planned to be organized in the end of January 2023. The doodle for selecting the date of the meeting is currently ongoing.

- ENTSO-E and Transparency Platform experts from TSOs are expected to provide written responses to the market participants' (EURELECTRIC) TP-related questions and feedback raised during the 27 October EBSG meeting.

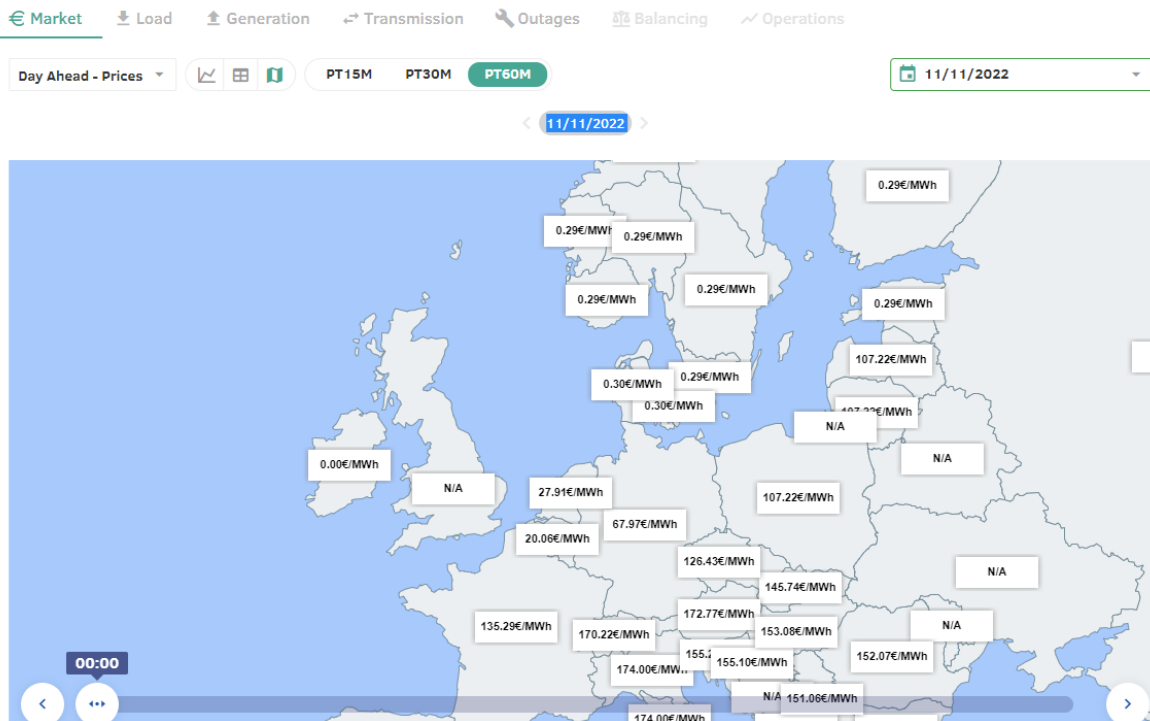

A written response to all the questions raised by EURELECTRIC was sent.

TP Graphical User Interface (GUI) Update

Stream I - TP GUI Implementation

- As part of the TP's new GUI implementation scope, Phase III activities have been kicked off in the second quarter of 2022. Phase III has been planned to be implemented in 3 streams. Currently, the Stream I is in progress.

The Day-ahead Prices (TR art.12.1. D) data item, was successfully launched on the new TP GUI in full scope with graphical, tabular and map views. Click [here](#).

- Accepted Offers and Activated Balancing Reserves TR art. 17.1 D&E and Balancing Energy Bids 12.3 B&C are under development with a target go-live in Dec-22.
- Streams II and III have target go live dates in April and August 2023
- The current GUI will be decommissioned by the end of 2023.

TP Survey for TP Users

Available for all TP users

ENTSO-E Secretariat together with the Market Information and Transparency Working Group (MIT WG) is conducting a survey regarding the ENTSO-E Transparency Platform (TP) user experience. The survey is structured into 6 main subjects:

- User Introduction
- Data Accuracy and Timeliness
- User Experience
- User Priorities
- Service Desk Satisfaction
- Vision and Conclusions

Please find the survey [here](#) and feel free to provide your feedback by 23/12/2022
